

# [Freedoms Day-1] Welcome, NAME!

Hello NAME,

Welcome to my 3 Freedoms Method email series.

In the next few days, I'm gonna share with you the story of how I achieved Entrepreneurial Freedom in my own business...

## **Warning: It's not all rainbows & roses!**

Like you, I faced many obstacles, setbacks, and challenges that prevented me from achieving the freedom I was after...

Luckily, I figured it out.

It all started when I ran the family business after graduating from university, then eventually starting 4 more businesses over the years.

The learning curve was steep but I emerged from the Lion's Den, carrying my hard-earned Freedoms back home. I learnt a lot in the process which is what I want to share with you...

Why? Because I believe that being a business owner is a very kiwi entrepreneurial thing to do, it is an extremely gratifying way to increase your quality of life & find meaning in *everything* that you do.

NAME, I'm so glad you're here!

Because the fact that you're reading this tells me that you're one of the few entrepreneurs who constantly adopt the growth mindset -- and that's awesome!

My hope is that my story will resonate with you, and inspire you to create your own Entrepreneurial Freedom...

Tomorrow, I'll start by telling you about the 2 Nike concept stores I opened and how they drove me to leave the country!

No holds barred. No truths swept under the rug. I'm going to tell you everything.

This is my way of showing you that *anyone* can achieve freedom & break through the obstacles that hold you back -- as long as you've got the right Method to get you there.

Hence the 3 Freedoms Method...

Sound good to you?

OK, keep your eyes open for my email tomorrow!

Here's to freedom,

Aaron

P.S. The subject line for tomorrow's email will be: "[**Freedoms Day-2**] I used to dread mornings on weekdays..."

## [**Freedoms Day-2**] I used to dread mornings on weekdays...

Hey NAME,

You know, I used to dread mornings on weekdays...

I was making 6-figures in my business, my employees are happy, and clients are *delighted* with our service.

...and yet, I still hated the mornings on weekdays.

**To be specific, I wasn't enjoying ALL of the responsibilities that I had as the business owner.**

You know what I'm talking about...

As owners, we're *constantly* bombarded with problems from our staff, clients, banks and suppliers.

They're all demanding your attention. And they want your attention *NOW*.

Worst part is, if you don't give them the attention they need, your business is gonna have problems later down the road...

After running my parents retail and wholesale sports business for a few years (if you run a family business, I feel for you!) I decided it was time to do my own thing.

Following an exciting process of due diligence, hustling, and hard work I opened the 2 Nike concept stores in Christchurch.

After 3 years the shine had well and truly worn off. The day to day grind could never match the excitement I felt when launching the stores and I felt like I'd peaked. We tried a number of things to grow but nothing seemed to work...

At the time, I believed the stores couldn't provide the lifestyle I wanted. So I sold up moved to London for the next adventure.

Now, when I look back I realise the 3 Freedoms Method would have helped me achieve exactly what I wanted — I just didn't know it!

## [Freedoms Day-3] My freedom epiphany

Hey NAME,

Yesterday I told you about how I sold my 2 Nike stores and moved to London, mistakenly thinking my businesses wasn't good enough.

Over a 4 year period I got high paying corporate jobs in London. I would be promoted quickly and was even poached by successful companies with exponential growth. Before I left to come home, I ran the sales team for a company turning over GBP50m a year.

**This opened my eyes to how big companies have methods and processes to overcome any obstacle in their way.**

I began to realise the true potential of my Nike sports stores — but I didn't want to acknowledge I wasn't skilled enough to maximise their full potential.

When I came back to NZ in 2008, I continued the corporate life working for multi-million dollar companies, soaking up as much knowledge as I could because the entrepreneurial fire was coming back and I knew I'd be running my own gig again one day.

Then it happened... I came across a framework that systematically analysed and solved any business problem your could think of. It was simple but brilliant!

I immediately knew that with a couple of tweaks and by adding a key ingredient (accountability) any business owner or CEO could quickly build a foolproof plan for success.

In fact I applied this new method to my Nike stores and BOOM - I could see a clear path for further financial growth and how I could work myself out of the business, working only 3-4 hrs a week. Ultimately earning more and working less all stress free!

I called this system the 3 Freedoms Method, because that's what I believe it helps you achieve. Time Freedom, Financial Freedom and Mind Freedom.

I've applied the method to problems in every industry you can think of and it works every single time.

In my free training video I explained it to you in detail. [Click here](#) if you want to watch it again...

The biggest problem I have is that it sounds too simple!

That's one reason why I'm offering a free strategy call, so I can walk you through it and show you how to get your business back on track.

Here are 3 rock-solid reasons why you should book a Strategy Call with me:

1. I can walk you through the exact step-by-step of the 3 Freedoms Method personally, so you won't miss a single step
2. I'll show you how virtually all high-achievers use this method to get to the top of the food chain - and *stay there*
3. If you've ever felt like your business should be doing a lot better... I can help.

## [Freedoms Day-4] Why entrepreneurial freedom is a BIG deal

*"It doesn't matter how your work situation is like... as long as you're making decent money through your business, right?"*

...not so fast.

You see NAME, I believe we all got into business for the same reasons: Time, Financial, and Mind freedom.

**There's a common thread in all three: Freedom.**

These 3 aspects of freedom are what compelled us to embark on this crazy journey called Entrepreneurship.

It was rough at first, like all things worth doing... but now, you've passed the critical period of make-or-break, and you're ready to take off!

Unfortunately...

It's been quite some time now that your business is doing OK - but not *great*.

And that, is frustrating to say the least...

Because without a concrete plan to move forward and break through this plateau, you'll be forever stuck with OK.

Which means you'd essentially be living the same life as everyone else out there...

**You won't be able to live your life with your own terms.**

What's more, you'd actually be in a *worse* place, what with all the obligations & responsibilities imposed upon a business owner.

This is why doing *great* and achieving true entrepreneurial freedom is crucial...

If you want to go from OK to *great*, then this is your invitation to claim a Strategy call with me..

I'll personally show you the *exact* method that every high-achiever in virtually every industry uses to go from OK to truly great, in business & in life.
