

Helping Your Organization Work More Effectively using SharePoint

You know how most people waste time & effort during project collaborations because of ineffective work systems?

I help business owners leverage the power of SharePoint to work more effectively, be more productive, and grow their business exponentially.

You're Here Because You Want to:

- ✓ Work more effectively in team projects
- ✓ Increase your team's productivity
- ✓ Spend less time going "back & forth"
- ✓ Easily store & share information with your team
- ✓ Keep track of your project's progress
- ✓ Have a centralized & clear workflow system

And you know that SharePoint is the best productivity/collaboration platform that can help you work more effectively.

There's only one problem...

Setting Up the Right SharePoint Site Can Be Challenging & Time-Consuming

Starting from identifying your business' needs, creating a site creation plan, and ultimately building the SharePoint site...

Extensive knowledge about SharePoint & experience is needed. Or else, you'd end up with a site/application that does not address your needs, an expensive bill, and an even bigger headache.

Therefore, it makes sense to seek an expert who can guide you towards success for your SharePoint project. Enter **Sharing365**.

Save Time. Make More Money. Enjoy a Better Work-Life Balance.

I've become a trusted SharePoint consultant to numerous companies for over 10 years. My job is to help identify their company's needs, solve their productivity issues, and help them improve their business processes — by leveraging my expertise & SharePoint.

From my experience, I've mastered not only the ins-and-outs of SharePoint & its supporting extensions... but also what an organization is looking for & the difficulties that they're facing — which allows me to help them save time & cost, while boosting their business' productivity.

Simply put, if you want someone with the right knowledge, skills, and experience in building a proper SharePoint site that is tailored to your company's needs — I'm your man.

Kind Words from Previous Clients

"With his exceptional service, superior coding skills, and an amazing tool like SharePoint, Jordy is someone you'd want on your side to boost up your organization's productivity & achieve your business goals."

- *Jad Hammoud (25 North Marketing Agency)*

Your 3-step to a successful SharePoint project

Step 1.

Book a call

Let's start by telling me about your organization, the challenges you're facing, and the goal that you have in mind.

Step 2.

Receive a project plan

Within 1 business day after the call, you'll receive a project plan proposal which details the step-by-step of how I will approach your project. Plus, the amount of time required & cost allocation plan of the whole project.

Step 3.

Execute the project together

Finally, after we've determined the goal, solution, and execution plan for the project, we will execute the project plan together.

Ready to talk about your SharePoint project?

Take the first step towards a more productive work system for your organization using SharePoint.
